

The 5 Quantum Human Design Types

Your Energy Type is the foundation of your design — it's how you're wired to express, create, and connect.

Each type has a unique way of interacting with the world, making decisions, and attracting aligned opportunities.

✦ **Manifestor → *Initiator***

Theme: Impact

You're here to get the ball rolling. Manifestors are bold initiators, designed to spark change and lead movements. You have powerful creative urges and thrive when you honor your impulses. When you inform others of your direction, you create space for more flow and less resistance.

Strategy: Inform before you act

Not-Self Theme: Anger

Signature Feeling: Peace

✦ **Generator → *Alchemist***

Theme: Sustainable Energy

You're here to build, grow, and master what lights you up. Generators are the life force of the planet — when you're lit up by what you do, your energy becomes magnetic and uplifting to others. You're designed to respond to life, not chase it.

Strategy: Wait to respond

Not-Self Theme: Frustration

Signature Feeling: Satisfaction

✦ **Manifesting Generator → *Time Bender***

Theme: Expansion

You're a fast-moving, multi-passionate creator — here to do things in your own unique (and non-linear) way. You blend the initiating energy of a Manifestor with the responsive energy of a Generator. Your gift is doing in minutes what takes others hours — but only when it excites you.

Strategy: Wait to respond, envision, then inform

Not-Self Theme: Frustration & Anger

Signature Feeling: Satisfaction & Peace

✦ **Projector → *Orchestrator***

Theme: Guidance

You see what others can't. Projectors are here to guide, not grind. You carry wisdom about systems, people, and energy, and thrive when recognized and invited. Rest is a power move for you — the more you honor your pace, the more magnetic you become.

Strategy: Wait for the invitation

Not-Self Theme: Bitterness

Signature Feeling: Success

✦ Reflector → *Calibrator*

Theme: Reflection

You are the mirror of the community. Reflectors are deeply sensitive and intuitive beings who sample and reflect the energies around them. You thrive in healthy, supportive environments and need time to feel into what's right. Your magic is in your fluidity.

Strategy: Wait a lunar cycle (28 days)

Not-Self Theme: Disappointment

Signature Feeling: Surprise & Delight
